The word "new," as applied to Men's Neck-wear, has been so shamefully misused as to have lost its real significance. We have never used it except when its full meaning was realized in its most honest sense. Therefore when we say "new neckwear" we mean such neckwear as has never been seen in this city before.

DISCUSSED IN WHEELING

United States Glass Company Officials at Pittsburgh

#### ARE ASKED BY SENATOR SCOTT

To Give Terms at Which a Company to be Organized in This City can Acquire the Plant-The Senator Waited on by South Side Glass workers who Invoked his Assist ance-If the Move is Successful the Name of Scott Will be Well Nigh Blessed in South Wheeling.

United States Senator Nathan B Scott, of this city, is at the head of a movement that contemplates the resurrection of an industry on the South Side that has been dead lo, these many ful the name of Scott will be well night blessed in South Wheeling.

Senator Scott, who is prominently connected with the Central Glass Works, was waited upon yesterday morning at the Central office by a delegation of glassworkers residing in outh Wheeling, former employes of the Hobbs plant, who importuned him to lend his powerful assistance in the movement to acquire the South Side plant from the United States Glass Company, to organize a local company and to put the works in operation again. The senator, while not anxious to extend his investments here, agreed to take hold of the movement and do all in his power to make it successful. He has entered into correspondence with President D. C. Ripley, of the United States Glass Company, asking him to name the terms on which the local people can acquire the Hobbs plant. A definite reply is expected shortly, when it will be possible to determine whether it is advisable to go ahead with the campaign for the organization of a local company.

Said Senator Scott last night:

"I believe the time is propitious to start the plant on the South Side, if we are able to secure it. All the table ware factories are getting all the business they can handle, and the glass business generally is in good shape. There is surely enough idle capital in Wheeling that is seeking avenues of investment to make the success of the present movement quite likely."

The senator was asked as to the amount of capital needed to float the enterprise. He replied that this could not be known definitely until the terms of the United States Glass Company for the acquirement of the plant are received.

As to the number of men who would be employed, the senator said the number would be about 150 with one furnace in operation.

The Hobbs plant was acquired early in the 'ninetles by the United States company, and has been idle nearly ever since. The news that there is an en-couraging outlook that this long stretch of idleness will come to an end soon, will be received with satisfaction throughout the community, and espec-

### THE RAILROADS.

The Wheeling & Lake Eric officials announced Tuesday afternoon that it had been aranged that they should enter the 5,000 mile photograph inter-changeable mileage book of the Central changeable mileage book of the Central Passenger Association, says the Cleveland Leader. A few days ago it was announced that for the first time the Wheeling & Lake Erie had entered the Central Passenger Association mileage book. Now they have gone a little further, and are in on the 5,000 mile book. This puts the road in line with the territory in which it operates. Some of the roads along the lakes, the Lake Shore, for instance, have a dislike for the regular mileage book of the Central Passenger Association, and have adopted the Northern book, but the Wheeling & Lake Erie, which formally hewed to the line laid down by the Lake Siore, is growing independent a little of late, and is now thinking for itself. Its latest action is the most interesting.

#### TO SLEEP SOUND

Leave Off the Coffee.

A city solicitor for a grocery in Amer leus, Georgia, reports that in calling upon a Mrs. W. F. Marsh, found her complaining greatly about the loss of sleep and nervousness in the family. He suggested that perhaps the trouble was caused by coffee drinking, and advised that they use Postum Food Coffee in its place. A box of the new Food Coffee was sent down to them and at a call the second day, Mrs. Marsh stated that about 3 o'clock in the morning she was suddenly awakened oby. her husband jumping up to dress, stating that he must get off to work. She looked at the clock and told him it was only 3 o'clock, and he must have made a mistake. He said he falt there was certainly something wrong with the clock, for he had slept his usual time, was perfectly refreshed and had his night's rest out. The good sound sleep continued night after night after, leaving off the coffee and using in its place the Postum Cereal Food Coffee.

The solicitor further says, "I told this experience of Mr. and Mrs. Marsh to Mr. H. F. Davenport, and after the first night's trial, he told me he had never slept better in years. Mrs. Davenport was in the store this afternon, pronouncing it wonderfules."

"Some of the doctors here are strong advocates of Postum Food Coffee. One, lady, Mrs. W. H. Howard, Jouys it by, the Goliar's worth, and is getting all her guests and acquaintances to use it. The president of one of our banks uses Postum Cereal Food Coffee to the exclusion of all other beverages, it meets with the approval of some of our best citizens." T. W. Chilaway of Gatewood Grocery, Americus, Ga. icus, Georgia, reports that in calling up on a Mrs. W. F. Marsh, found her com-

Cunningham, D. pastor of the leading Presbyterian church in Edinbrugh, Scotland, made an effective talk at last night's prayer meeting in the lecture room of the First Presbyterian church, and despite the Prespyterian cauren, and despite the inclement weather he was attentively listened to by many members of this and other churches. The distinguished visitor is in this country primarily to attend the sessions of the pan-Presbyterian council, which meets in Wash-ington, D. C., beginning September 27. He has been in the United States several months, making addresses a Moody's summer meetings at North-Moody's summer meetings at North-field, Mass., and at a number of assem-biles and educational institutions. Last night his talk was of an exhortatory nature. he figuratively dwelling on "The Hands and Feet of Jesus." To-day he will speak to the students at Washington and Jefferson college. Dur-ing his stay Dr. Cunningham was the

guest of Dr. D. A. Cunningham, be-tween whom, however, there exists no other relationship than of old friends. The Contract Awarded.

Yesterday morning the contract for the nine electric street arches that will the nine electric street arches that will be a notable part of the street illumin-ation during the Knights of Pythias grand lodge meeting here on October 11, was let to the Mountain State Electrical Company at its bid of \$500, the lowest of the two bids, the other being that of the American Electrical Company. The arches are to be ready for lighting on October 10. They will be provided with red, white and blue lights. The arch at Market and Twelfth will be a double arch.
